

New Service Activity Debrief

At a high level, how do you feel about the service project?

What are you most proud of?

What went really well?

Are there results that can be measured? If so, what are they?

What/who can we celebrate?

What could have gone better?

What would you do differently next time?

What are valuable learnings we can take from this project for future ones like this?

Did you meet the intention you set out for the project? Explain.

What are you grateful for as it relates to this project?

What are follow-up items we still need to do? (e.g. Thank anyone? Send it to the Service Academy for their library? etc.)
